

Oleksandr Rezanov

UX / Product Designer

Designer with 2.5+ years of experience specialising in efficient B2B SaaS solutions. I use my multi-disciplinary background to provide strategic discipline and deep empathy, taking full ownership of the design cycle. Focused on translating complex challenges into intuitive, human-centered outcomes and structural improvements.

Experience

UX Designer / PlentyONE

August 2024 - March 2026 | Remote

- Led the end-to-end design for a new WYSIWYG Shop Editor, serving as the sole designer in a cross-functional team (PMs, TLM, Developers) from conception to live launch, resulting in a high volume of new shops being created.
- Simplified complex workflows by consolidating numerous legacy system settings directly into the new Editor interface, resolving key pain points and improving overall user intuition.
- Drove systematic quality by contributing to the design system and leading a project to refresh the UI's visual elements for a cohesive product look.
- Ensured design feasibility and alignment through continuous research, UX consultancy and close collaboration with Product Management and Engineering teams, acting as the sole responsible designer for the entire area.

UX Designer / Geostrategists

April 2024 - July 2024 | Remote

- Delivered the complete redesign of the corporate website to improve brand perception, professional image and usability.
- Led the end-to-end UX design and strategy for the launch of the platform's first MVP, conducting a comprehensive audit of the existing prototype and UX research to re-engineer the Information Architecture (IA) and user flows into high-fidelity mockups with precise technical specs for development and efficient design system.
- Managed direct collaboration with the CEO and Development team to ensure alignment on vision and technical feasibility throughout the project lifecycle.

UI/UX Designer / Hubinit

October 2023 - March 2024 | Remote

- Executed the full UX process, including competitive analysis, user research, wireframing, prototyping, and usability testing to validate design solutions.
- Designed and delivered a tailored corporate website redesign, focusing on clear information architecture and optimizing the user journey from discovery to sign-up.
- Managed cross-functional collaboration, communicating design rationale and presenting final solutions to stakeholders.

Fitness & Performance Coach / Self-employed

2018 - 2022 | Kyiv, Ukraine

- Established and operated an independent coaching business, designing personalized fitness and training programs for high-level athletes (e.g., football players from Dynamo Kyiv) and general fitness clients.
- Developed deep empathy by tailoring programs to diverse client needs and individual goals ensuring high-quality, personalized service.

Professional T&F Athlete / Ukrainian Athletics Federation (UAF)

2014 - 2022 | Kyiv, Ukraine

- Successfully navigated a high-performance athletic career, achieving recognition as a Multiple National Champion, represented Ukraine in high-level international competitions, including the European Championships and World University Games.
